

WING  
Plaintiff

-and-

9219-1568 Quebec Inc. et al.  
Defendants

April 11/23.

Plaintiff bring a consent motion to discontinue this class action proceeding on a without costs basis.

The mutual undertakings that the defendants were to 9219-1568-Quebec Inc have ~~not~~ not been served with the claim. Also, that there is another class action in Quebec and that the plaintiff wishes to proceed by ~~into~~ individual proceeding.

Based on the movement of mutual filed, I am

convinced that action may be discontinued and that there is no prejudice to the plaintiff class in this proceeding to discontinue. I also see no prejudice to the defendants if this relief is granted.

OTO per dublet veynd this day.
